

Commercial Pesticide Applicators Exam Prep Seminars

Dear ASLA,

The Colorado Nursery & Greenhouse Association (CNGA) and Colorado State University (CSU) offer the Commercial Pesticide Applicators (CPA) Exam Prep Seminars to help you prepare for and pass the Colorado Department of Agriculture's (CDA) Commercial Pesticide Applicators Licensing Exam.

Taking the CNGA/CSU Exam Prep Seminars can double your chances of Success saving you time and money.

Officials at the Colorado Department of Agriculture recommend hiring only licensed pesticide applicators.

"Every licensed commercial applicator in Colorado has to meet strict testing requirements that are enforced by the department," said Matt Lopez, pesticide enforcement specialist for CDA's Pesticide Section. "For better environmental and public safety, they must have the necessary training, expertise and experience to apply these chemicals."

Seminar Dates and Times

General Seminar Part I, September 21, 9 a.m.-3 p.m.

Introduction and overview: What is a pest? Insects, diseases, weeds, integrated pest management, plant health care, and laws and regulations.

General Seminar Part II, September 23, 9 a.m.-3 p.m.

Pesticides, labels and MSDS, pesticide application and calibration, applicator and public safety, and pesticides and environmental safety.
