

COLORADO'S LANDSCAPE ARCHITECTS

Practicing, Leading and Educating in the Careful Stewardship, Wise Planning and Artful Design of our Cultural, Natural and Built Environments.

Landscape architects, like their fellow design professionals, architects and engineers, are required to be licensed in the state of Colorado. Licensure, and the landscape architect's professional stamp on plan documents represents a standard of quality that protect the health, safety and welfare of the public by ensuring that license holders have met state and national practice standards and requirements.

URBAN DESIGN

- land use planning
- streetscape design
- redevelopment
- historic preservation

Landscape architects design and plan evocative resort environments that people use and enjoy
The Arrabelle at Vail Square - DHM Design

Landscape architects create safe, effective and functional designs that build a "sense of place"

Gypsum / Eagle River Area Plan - AECOM

Landscape architects collaborate with commercial and governmental interests to bring activity, environmental functions, and economic vitality back to degraded sites

Arkansas Riverwalk / Pueblo - Design Studios West

Landscape architects incorporate respect for historic features and cultural richness in the process of developing master plans and design guidelines for landmark sites

Denver Civic Center Master Plan and Design Guidelines - Mundus Bishop Design

TRANSPORTATION PLANNING AND DESIGN

- roadway corridor enhancements
- multi-modal streets & transit centers
- community trail systems

Landscape architects design multi-modal streets and transit facilities to provide safe, efficient, and attractive amenities for pedestrians and vehicles

Avon West Station / Town Center – Design Workshop

Landscape architects, collaborating with artists and engineers, at a variety of scales, create functional and memorable designs

Louisiana & Pearl Light Rail Station Plaza - Jump Design with URS

COMMERCIAL LANDSCAPES

campus design
mixed-use planned communities
multi-family office & industrial design
healing & therapeutic gardens

Landscape architects design parking and pedestrian facilities that are both functional and attractive while managing site drainage to filter and reduce stormwater runoff

Taxi 2 Redevelopment and Stormwater Gardens - Wenk Associates

Landscape architects help patients recuperate by providing sensory-rich outdoor environments that help patients enjoy nature and overcome obstacles

Left: Mike Utley Terrain Park at Craig Hospital - H+L Architecture

Center: Medical Center of the Rockies - BHA Design, Inc.

Right: Hewit Foundation Healing Garden - Norris Design

RESIDENTIAL LANDSCAPES

- garden design
- site design
- water features

Landscape architects create designs for outdoor use areas and water features that inspire and delight

Tiers Crafted - Bluegreen Design

Aspen Residence - DHM Design with Eric J. Smith Architects & David Easton, Inc.

Boulder Rooftop Garden - R Design

PARKS & RECREATION PLANNING

- public parks & gardens
- playgrounds & athletic fields
- community trail systems

Landscape architects have specific technical training in the design of outdoor recreation facilities that must accommodate a wide variety of ages, ability levels, and accessibility

Landscape architects develop park designs for public recreation, social gathering, relaxation, and inspiration in diverse settings from city centers to remote natural areas

America The Beautiful Park - AECOM with Thomas & Thomas

WATER RESOURCES & SUSTAINABILITY

drainage design
stormwater management
landscape restoration
irrigation design

Landscape architects collaborate with ecologists and engineers to restore drainage corridors that are eroded, ecologically degraded, and flood hazards

Little Dry Creek - The Architerra Group

Landscape architects design wetlands that help preserve water quality and biological diversity while creating safe and attractive parks for people

Jenny Adair Stormwater Wetland - City of Aspen Parks Department

REFLECTIVE LANDSCAPES

Memorials
Sacred Sites
Monuments

Landscape architects sensitively design places of meaning, memory, and reflection that help individuals and communities remember, contemplate, and dream

Columbine Memorial - DHM Design

Creating the places where people live, work and play.

Landscape architects, like their fellow design professionals, architects and engineers, are required to be licensed in the state of Colorado. Licensure, and the landscape architect's professional stamp on plan documents represents a standard of quality that protect the health, safety and welfare of the public by ensuring that license holders have met state and national practice standards and requirements.
