

Landscape Architect/Landscape Designer Denver | Fort Collins

Company Profile

Flow Design Collaborative is growing, and we are looking to add a landscape designer/landscape architect with 2-3 years of professional experience. We are interested in passionate, self-motivated individuals who are excited about an opportunity to play a key role in a small firm setting. Flow Design Collaborative took root in 2017 with a mission to affect positive social and environmental change through creative design. Our firm size and project diversity, coupled with a culture of collaboration and positive support, provides an excellent opportunity to explore your interests and expand your knowledge base while playing an integral role in establishing Flow Design Collaborative as leaders in the landscape architecture field.

Position Description

Our ideal candidate is highly creative, energetic and knowledgeable about the latest design trends and technologies. This position will be responsible for providing project support and thoughtful input throughout the design and construction process for a broad range of site planning and design projects. You can expect that each day will look different from the previous, constantly providing new challenges and opportunities. Your work will include preparation or assistance with preparing design concepts and graphic presentations, exploring innovative construction techniques, developing construction document packages, project estimating, and participating in client and design team meetings. We are committed to supporting your interests and passions as an individual and as a professional, as you look to improve your abilities to support our team and clients.

Required Skills

In order to meet the challenge, candidates will need to have strong design, graphic and organizational abilities. In addition, excellent written and verbal skills are essential. Computer software proficiency must include Autocad, Adobe Suite and MS Office. The ability to produce high-quality illustrations and computerized 3D modeling using SketchUp and Lumion or similar is preferred. Candidates must be self-motivated, willing to take initiative and work independently. Undergraduate or Master's degree in landscape architecture or combination of a similarly related degree and professional experience is required. Candidates should hold a Colorado Landscape Architecture registration or have the ability to become registered within two years.

If you are a dynamic person who seeks to grow alongside a dedicated and creative team, and believe you have the passion and skills to get the job done, please get in touch!

Flow Design Collaborative will provide an enjoyable environment with challenging assignments and excellent opportunities to grow. We offer competitive compensation and benefits, including flexible working hours, health and wellness support, retirement savings, paid time off, and support with professional licensure and affiliations. Flow Design Collaborative is an Equal Opportunity Employer.

We greatly appreciate your interest in Flow Design Collaborative. If you or someone you know are interested in learning more about this position, please send your inquiry with the subject heading "Landscape Designer/Landscape Architect" to flow@flowdcla.com. Please include a resume and portfolio or work samples, along with a cover letter letting us know why this is the ideal opportunity for you. Please be nice to our in-box 😊
