

Livable Cities Studio, Inc.

Livable Cities Studio is a design studio based in Denver and focused on addressing the needs of the rapidly changing urban environment in our cities. Our work revolves around people and design with a social and environmental purpose, emphasizing the new and expanded roles of infrastructure, as a city-shaping agent, and the public realm in creating livable cities. Our studio culture is highly collaborative and promotes diversity and flexibility in the workplace. As an emerging new firm, we value applicants who are excited to take on a variety of tasks, further develop our office culture, diversify our skillset, or otherwise expand our practice. We are looking for passionate, creative, and highly motivated individuals to join our team and help shape the future of our cities in a fun and stimulating environment.

Urban Designer / Planner / Landscape Architect: 3+ years of experience

Livable Cities Studio is looking for a full-time landscape architect, urban designer or planner with **3+ years of experience** to join a growing team on a variety of urban design and landscape architecture projects focused on the planning and design of neighborhoods, streetscapes, urban parks and plazas. Their primary responsibility will be to work with the office on all components of the projects, including preliminary planning and conceptual design, design guidelines, urban design redevelopment plans, neighborhood plans, project management and client interaction. Versatility and willingness to be flexible and take on a variety of tasks is essential. Our ideal applicant would be invested in public projects, high-energy, organized, collaborative and outgoing with excellent communication, planning and design skills, and some combination of experience with urban design and planning of neighborhoods, districts, corridors and various urban design projects.

Required skills must include:

- Exceptional level of urban design expertise and proficiency in developing urban design and planning concepts in the areas of neighborhoods, districts, corridors and redevelopment projects.
- Experience participating in public engagement processes with communities and stakeholders
- Exceptional visual communication skills, including experience with animation, virtual reality, video, 3D animated graphics and visualizations.
- Desire to work in collaborative teams and previous experience leading interdisciplinary design and planning efforts
- Previous experience with planning and urban design of neighborhoods, districts and urban redevelopment projects in cities
- Experience in AutoCAD, Sketch-Up or other 3D applications and Adobe Creative Suite

Applicants should have a minimum of a Bachelor's degree In Landscape Architecture, Architecture, Urban Design, Planning or an equivalent degree. A minimum of 3 years working in an office environment is required.

Please send a cover letter, resume, work samples and one work reference to info@livable-cities.com. Please include "Urban Designer / Landscape Architect" in the subject line. Position open until filled. No phone calls, please.
