

Landscape Architecture • Planning • Entitlements

### **LANDSCAPE ARCHITECT / PLANNER – 3 Positions- All Levels**

**Henry Design Group, Inc.** has immediate opportunities for well-rounded design professionals to join our staff and grow with a small but established firm located in downtown Denver. Our portfolio of current projects includes commercial and mixed-use developments, single and multi-family communities and parks and open spaces.

We are currently seeking full-time employees to assist in the production of planning documents for City submittals, landscape design plans and graphics. Qualified candidates must display the ability to assist in crafting a vision for a project through verbal and graphic communication.

#### **ENTRY LEVEL - Mandatory Skills, Experience and Education**

- 3-5 years of experience working in a professional office
- Excellent hand and computer graphics
- Technically proficient in AutoCad; Adobe Creative Suite (Photoshop, InDesign, Illustrator); Sketch Up, Lumion or 3D Graphic Software and Microsoft Office Suite
- Ability to self-start and self-edit design concepts
- Land development and entitlement document preparation experience desired
- Strong organization skills
- Positive attitude, sense of accountability, and good judgement
- Ability to act as an independent thinker, to self-start and work independently
- A strong interest in learning, growth, and continuing education
- Landscape architecture license, or currently pursuing licensure
- Bachelors or Master's Degree in Landscape Architecture from an accredited university

#### **MID LEVEL - Mandatory Skills, Experience and Education (2 Positions)**

- Professional Landscape Architect (PLA in Colorado)
- 5-10 years of experience working in a professional office
- Positive attitude, sense of accountability, and good judgement
- Excellent design skills in branding, hardscape and landscape design
- Land development and entitlement document preparation experience desired
- Experience coordinating a design team and managing a project
- Ability to self-start and self-edit design concepts
- Ability to design with creativity and innovation
- Construction documentation and observation
- Candidate shall possess a thorough understanding of the design process, design principles, codes and standards within the landscape architecture industry
- Candidate shall be knowledgeable in horticulture and landscape construction practices
- Bachelors or Master's Degree in Landscape Architecture from an accredited university
