

Position: Senior Landscape Architect/Project Manager

Location: Denver/Centennial, Colorado

Position Type: full or part time

Travel: project sites throughout Denver and Colorado

FLSA Status: non-exempt

Our Firm

Goodbee & Associates is a growing multi-disciplinary consulting firm specializing in landscape architecture, utility design and coordination and environmental planning. We are engaged in public realm projects at a variety of scales. Our experience includes urban streetscapes, program management, open space and park design, visual impact assessments, highway landscapes, public building sites and plazas, bridge and wall aesthetics, light rail corridors and green infrastructure.

Position Summary

Goodbee is actively searching for a highly motivated Senior Landscape Architect/Project Manager to join our growing firm in Denver. As a Project Manager, responsibilities may include leading design efforts for major public projects, managing public programs on behalf of our clients and mentoring junior staff. We are looking for an independent and proactive leader with strong communication skills, who prefers to work collaboratively in a dynamic environment.

Responsibilities

- Work on all phases from concept through construction administration
- Manage team production of construction details, specifications, drawing packages and presentation materials
- Coordinate the services of subconsultants and vendors
- Develop technical solutions
- Communicate effectively in writing and verbally, as these are essential to work with clients and colleagues at all levels.
- Provide leadership to the project team by assigning project tasks and coordinating resources
- Understand and manage project scope, risks, issues, deliverables, and schedule of individual tasks
- Participate in community engagement efforts
- Assist with marketing and development of proposals

Required Skills and Expertise

- Licensed landscape architect or license in process
- 10-15+ years of landscape architectural experience, public projects preferred
- Experience with survey, field investigations, and construction administration
- Proficiency with AutoCAD, Adobe CS, Microsoft Office
- Excellent communication skills
- Working knowledge of Microsoft Word, Bluebeam and/or Adobe PDF
- LEED AP or SITES Certified, a plus

Educational Requirements

Master or Bachelor of Landscape Architecture

Goodbee is dedicated to providing a professional, healthy, flexible, and supportive work environment. Employee benefits may include:

- Reimbursement for Medical, Dental, and Vision Insurance
- 401(k) Plan

- Paid Time Off
- Paid Holidays
- Group Term Life and AD&D Insurance
- Long Term Disability Insurance
- Professional Development and Mentoring
- Community Involvement Opportunities

Please submit resume and a portfolio/work samples no bigger than 10 MB to patti@goodbeeassoc.com.
No phone calls please.

Goodbee and Associates is an Equal Employment Opportunity and Affirmative Action Employer.
