

Stream Landscape Architecture + Planning (Stream) focuses on technically challenging and sustainable projects in the realm of water-resources, green infrastructure, parks and open space, recreation, and urban design.

We are seeking inquisitive, enthusiastic, and team-oriented individuals to join our growing firm. The ideal candidates want to grow with us—and have a desire to go beyond basic expectations. They are self-motivated, ambitious, and have exceptional graphic and drafting production abilities - and should be interested in being involved in all phases of work including design, planning, project management, construction administration, and business development.

We believe strongly in a healthy work/life balance and greatly value team members who are motivated by their own drive to create exceptional projects. Our team-members are provided with excellent benefits including competitive salary and provisions for paid time-off, retirement savings, wellness and health care, continued education, and professional licensure.

Visit streamla.com to learn more [about us](#) and [what we do](#).

We embrace unique skill sets and backgrounds, yet a successful applicant will have a solid background and proficiency in the following skills/experience to fulfill the baseline requirements of each position listed below:

Landscape Designer, Experience level: 1 to 3 years

- A degree in landscape architecture
- 1-3 years of proven professional work experience;
- The ability to work collaboratively with senior staff to fulfill design and project work requirements;
- AutoCad, Adobe Creative Suite, and Sketchup (bonus: 3D Civil, Lumion, other modeling/rendering, etc.);
- Drafting and preparation of project graphics, construction documents, research, etc.;
- Strong graphic rendering capabilities (hand and digital); and
- Professional communication skills (verbal and written).

Other professional skills/qualifications that are not required, but would be valuable to the firm are:

- Concept design, site design, and grading skills (bonus: water-resource experience);
- Understanding of construction observation, proposal development, specification writing, business operations, and development and delivery of verbal presentations.

*No Calls Please - Qualified candidates should email (Attn: streamjobs@streamla.com) a **single pdf file** (max 15mb) including: **resume, work samples, professional references, and a personal statement** that provides insight as to who you are personally, and why you believe Stream would be a good fit.
